H. TO CONSIDER AND APPROVE THE RESOLUTION IN RELATION TO ENGAGEMENT IN FOREIGN EXCHANGE HEDGING BUSINESS BY THE COMPANY AND ITS SUBSIDIARIES

With the growing presence of the Company in the international market, the international business became increasingly robust and promising and, accordingly, foreign currency settlement and overseas financing of the Company increased progressively. In order to avoid the adverse impact of fluctuation in interest rate and exchange rate on the production, operation and cost control of the Company, the Group proposes to carry out foreign exchange hedging business with self-owned funds of not more than RMB5 billion (inclusive) or its foreign currency equivalents, based on the import and export businesses relating to foreign exchange, receipts and disbursements of international projects and fund demand of the Company in 2021, and in accordance with the prudent projection principle. The Board only intends to set a cap for the scale of such foreign exchange hedging business and no concrete transaction is proposed to be made for the moment. When entering into any specific transaction, the Company will comply with relevant requirements including Chapter 14 of the Hong Kong Listing Rules.

The foreign exchange hedging business of the Group only concerns such major currencies as used for settlement in the production and operation of the Company. Such currencies include US dollars, Australian dollars, Hong Kong dollars and Euros. The foreign exchange hedging business of the Company pertains to business quoted in the stock exchanges and mainly includes forward exchange facilities, futures exchange, foreign exchange swap, interest rate swap and the relevant product portfolio.

Considering the Company's asset scale and business needs, the amount of the foreign exchange hedging business proposed to be carried out by the Company shall not exceed RMB5 billion (inclusive) or its foreign currency equivalents, and not exceed 40% of the latest audited total assets of the Company. The chairman of the Board shall be authorized to approve routine foreign exchange hedging business plans and execute contracts in relation thereto.

The business shall be effective and valid for 12 months from the date of consideration and approval at the 2020 AGM of the Company.

Risk analysis and control measures relating to the operation of foreign exchange hedging business:

1. The foreign exchange hedging business of the Company and its subsidiaries shall be conducted in accordance with the principle of hedging for the sake of locking in exchange rate and shall involve in no venture and arbitrage transactions. When entering into contracts, the projected amount for foreign exchange receipts and disbursements (including international investment) and debt repayments in the import and export business of the Company shall be heeded strictly.

2. In terms of risks concerning exchange rate fluctuation, the Company will enhance study and analysis of exchange rate, keep abreast of the changes in international markets, and adjust its operation strategy when appropriate to get rid of exchange loss to the utmost. The Company will make proper projections on the exchange rate movements in coordination with its bank partners, keep close track with changes in exchange rate and implement dynamic management base on market changes. It will strictly control the proportion of the amount occupied by foreign exchange hedging over the total business amount and allow for strategic adjustment in response to exchange rate fluctuation.
3. For liquidity risks, the foreign exchange hedging business of the Company is based on the budgetary foreign exchange receipts and disbursements of the Company. As the foreign exchange hedging business of the Company is well aligned with the actual foreign exchange receipts and disbursements, adequate capital for settlement at delivery is ensured to be right in place. As such, there is little impact on the liquid assets of the Company.
4. As to operation risks, the Company has prepared the foreign Exchange Hedging Management System (《外匯套期保值管理制度》), which prescribes that such business can only be carried out with the self-owned funds of the Group, and no transaction on financial derivatives purely for the purpose of profit shall be conducted. The Company is staffed with specialty personnel compatible with the responsibility of the post, who will implement the foreign exchange hedging business in strict compliance with the terms of reference. The Company has also set up the timely reporting system for abnormalities to circumvent operation risks to the extent possible.
5. In order to prevent delayed delivery of foreign exchange hedging, the Company will regulate the total amount of foreign exchange funds and the settlement and sale timing of foreign exchanges in close adherence to the receivable collection scheme. In principle, the lock-up amount and period for foreign currency hedging shall be in line with the recovery amount and time of foreign currency in circulation. In addition, the Company will give special weight to the management of foreign currency receivables to avoid late payment of account receivables.
6. With regard to legal risks, when conducting the foreign currency hedging business, the Company will keep abreast of relevant domestic and overseas policies and regulations and follow closely the requirements under relevant laws and regulations so as to ensure the lawful operations of the Group in respect of relevant transactions. Besides, the Company will enter into legal agreements with accurate and clearly defined terms to avoid any possible legal dispute.

7. The audit department shall be responsible for supervising and inspecting the compliance matter of the decision-making, management and implementation of hedging transactions made by the Group; making analysis on the operation status and fulfillment of plans of the Group, issuing review opinions on the necessity of the hedging business based thereon and providing information on profit and loss analysis and risk analysis in a timely manner in accordance with the management requirements.

- (iii) Performance assessment at company level

The assessment period of the Share Options under the Share Option Incentive Scheme covers four accounting years from 2021 to 2024. The assessment shall be conducted once a year.

The annual performance assessment targets of the Share Options granted are as follows:

Exercise period	Targets of performance assessment
First Exercise Period	The net profit growth rate of 2021 shall be no less than 380% based on the net profit of 2020;
Second Exercise Period	The net profit growth rate of 2022 shall be no less than 520% based on the net profit of 2020;
Third Exercise Period	The net profit growth rate of 2023 shall be no less than 620% based on the net profit of 2020;
Fourth Exercise Period	The net profit growth rate of 2024 shall be no less than 730% based on the net profit of 2020.

The “net profit” and net profit growth rate mentioned above and after refer to the net profit attributable to the Shareholders of the Company after deducting non-recurring profit or loss, with the net profit excluding the share-based payments incurred by the Company’s implementation of Share Option Incentive Scheme as the calculation basis (in accordance with the China Accounting Standards for Business Enterprises).

If the Exercise Conditions of the Share Options are fulfilled, the Participants may exercise their Share Options according to the proportion as stipulated in the Share Option Incentive Scheme. If the Company fails to achieve the above performance assessment targets, none of the Participants shall exercise their Share Options exercisable for the corresponding assessment year, which shall be cancelled by the Company.

(iv) Performance assessment at segment/subsidiary level

Exercise of the Share Options is subject to the fulfillment of the performance commitment to the Company made by the segment or subsidiary to which the Participants belong. Detailed arrangements for exercise of the Share Options are shown in the following table:

Assessment results	Actual fulfillment of performance commitment	Method for exercise of Share Options
Fulfilled	P 100%	All the Share Options which are to be exercised by the Participants in the segment/subsidiary for the period can be exercised
	80% P<100%	“80% of the Share Options which are to be exercised by the Participants in the segment/subsidiary for the period” can be exercised and the remaining shall be canceled by the Company
Not fulfilled	P<80%	None of the Share Options which are to be exercised by the Participants in the segment/subsidiary for the period can be exercised and all of them shall be canceled by the Company

The Share Options which are to be exercised by the Participants in the segment/subsidiary for the period can only be exercised fully or partially when the performance commitment has been fulfilled in the assessment for the previous year; if the segment/subsidiary fails to fulfill its performance commitment, the portion out of the Share Options which have been granted to and are to be exercised by the Participants in the segment/subsidiary for the period shall be canceled by the Company according to the requirements under the Incentive Scheme.

The Share Options which are to be exercised for a period shall correspond to the performance assessment at segment/subsidiary level, and the portion of the Share Options for which the performance commitment is not fulfilled in an assessment year shall not be deferred to the following year and shall be cancelled by the Company instead.

(v) Performance assessment at individual level

The Remuneration and Assessment Committee will grade the comprehensive assessment results of the Participants for each assessment year, the details of which are as follows:

Assessment results (S)	S 80	80 > S 70	70 > S 60	S < 60
Standard quota	1.0	0.9	0.8	0

Number of Share Options a Participant actually exercises for a particular year = Number of Share Options the Participant plans to exercise for the year × exercise proportion.

The Participants can only exercise part or all of their Share Options for a particular year when they meet the conditions during the performance assessment in the previous year. Whether a Participant can exercise his/her Share Options depends on the individual performance assessment results of the Participant under the Assessment Measures of the Company. The Share Options that cannot be exercised in an assessment year shall be cancelled by the Company.

(3) *Scientificity and Reasonableness of the Assessment Indicators*

The assessment indicators of the Company’s Share Option Incentive Scheme are divided into three levels, namely, the performance assessment at the company level, the performance assessment at segment/subsidiary level and the performance assessment at the individual level.

The indicators of performance assessment at the company level are the net profit growth rate, which ultimately reflect the operation condition, profitability and growth of an enterprise. The indicator of net profit is an important indicator to measure the operation performance of an enterprise, which can help an enterprise to establish a good image in the capital market. After taking into consideration the macroeconomic environment, historical performance, development condition in the industry, market competition and the development plan of the Company in the future and other related factors, the Company has established the following performance assessment targets for the Share Option Incentive Scheme: based on the net profit attributable to Shareholders of the Company after deducting non-recurring profit or loss of 2020, the net profit growth rate of 2021–2024 shall be no less than 380 %, 520 %, 620% and 730 %, respectively. The Company has established net profit indicator which is scientific and reasonable for the Share Option Incentive Scheme, which is beneficial to motivating and mobilizing the work enthusiasm and initiative of the Participants, and therefore facilitating the achievement of the Company's strategic objectives.

In addition to the performance assessment at the company level, the Company has established a strict performance assessment system for the segment/subsidiary and individuals, which evaluates comprehensively the performance of each segment/subsidiary and the Participants in an accurate and comprehensive manner. The Company will determine whether each segment/subsidiary and the Participants meet the exercise conditions based on their performance assessment results for the previous year.

Given the above, the assessment system for the Share Option Incentive Scheme of the Company is comprehensive, systematic and operable, and the assessment indicators are scientific and reasonable, which are binding on the Participants and can serve the assessment goal of the Share Option Incentive Scheme.

1.10 *Accounting Treatment of the Share Options under the Share Option Incentive Scheme*

(1) *Accounting Treatment*

In accordance with the requirements of the Accounting Standards for Enterprises No. 11- Share-based Payment, the Company shall, on each balance sheet date during the Vesting Period, adjust the estimated number of Share Option that may be exercised in accordance with the latest number of the Participants who have fulfilled the exercise conditions and the performance indicators, and recognize the services received during the period as the relevant costs or expenses and capital reserve in accordance with the fair value of the Shares Option on the Grant Date.

(2) *Calculation of the Fair Value of the Share Options*

The Ministry of Finance promulgated the Accounting Standards for Business Enterprises No. 11 – Share-based Payment and the Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial

Instruments on 15 February 2006, which came into force and began to be applied by listed companies on 1 January 2007. According to the relevant provisions on the determination of fair value in the Accounting Standards for Business Enterprises No. 22 – Recognition and Measurement of Financial Instruments, an appropriate valuation model is required to be selected to calculate the fair value of the Share Options. The Company chooses Black-Scholes model (B-S model) to calculate the fair value of the Share Options, and then uses the model to predict the total fair value of the Share Options to be RMB527,345,900 (the fair value will be measured on the Grant Date). The specific parameters were selected as below:

- (i). Price of the Underlying Shares: RMB96.28 per Share (assuming the closing price was RMB96.28 on the Grant Date)
- (ii). Exercise Price: RMB96.28 per A Share
- (iii). Validity Period: one, two, three years and four years, respectively (based on the period commencing from Grant Date and ending on the first Exercisable Date for each respective period)
- (iv). Historical volatility ratio: 62.96%, 57.24%, 54.89% and 55.51%, respectively (adopted the historical volatility ratio of the Company in the latest one, two and three years, respectively)
- (v). Risk-free interest rate : 2.58%, 2.78%, 2.87% and 2.93%, respectively (adopted the yield of PRC treasury bond for one, two, three and four years)
- (vi). Dividend yield : 0.48%, 0.91%, 0.80% and 0.65% (the average dividend rate of the Company in one year, two years, three years and four years prior to the Announcement of the Share Option Incentive Scheme)

* The fair value of the Share Options is only an estimate made by the Company under the Black-Scholes model and a number of assumptions. Therefore the fair value estimated is subject to uncertainty and the limitation of the model.

(3) *Impact on the operating performance of the Company*

The fair value of the Share Options on the Grant Date which is determined in accordance with the relevant valuation method, and the costs of payment of Shares under the Share Option Incentive Scheme which is determined finally, will be amortized in accordance with the percentage of Share Options exercised during the implementation of the Share Option Incentive Scheme. The incentive costs incurred from the Share Option Incentive Scheme will be charged to the recurring profit and loss.

Assuming that the Company grants Share Options to the Participants at the beginning of June 2021. According to the requirements of the PRC accounting standards, the impact of the Share Options granted under the Share Option Incentive Scheme on accounting costs of each period is shown in the following table:

Number of Share Options granted (0'000)	Total costs to be amortized (RMB0'000)	2021 (RMB0'000)	2022 (RMB0'000)	2023 (RMB0'000)	2024 (RMB0'000)	2025 (RMB0'000)
1579.40	52734.59	14387.75	19036.28	11453.99	6129.82	1726.74

Note: the above results do not represent the final accounting cost, in addition to the actual Grant Date, grant price and grant number, the actual accounting cost also relates to the number of equity which actually take effect and lapse, and the final results of the impact of the above costs amortization on the operation results of the Company is subject to the annual audit report to be issued by the accountant firm.

According to the preliminary evaluation by the Company based on the information available, without taking into account the stimulus effects of the Share Option Incentive Scheme on the results of the Company, the amortization of the costs of Share Options Incentive Scheme shall affect the net profit of each year during the Validity Period, but the effect will not be substantial. Taking into consideration the positive impact of the Share Option Incentive Scheme on the development of the Company, such as motivating the management team, increasing the operational efficiency, and reducing agent costs, the benefits generated from the improvement in the Company's results due to the Share Option Incentive Scheme shall far exceed the increase in expenses.
